

2010 Annual Report

A “New Wine for New Wine Skins” Year

Dear Prayer Partners and Ministry Supporters,

The year MMX (2010) was a “New Wine for New Wine Skins” year. You see me (David) in the picture above on a rock climbing wall straining and reaching to go to the next level. It is a perfect picture for where we have been and where we are now. A lot of things have changed since we accepted the gifts of the Spirit and began moving in more power in our ministry.

Let me begin with the old things that are no longer: The itinerant preaching ministry has been in decline for years, but it finally caught up to us in 2010. That “old wine”, so to speak, finally ran out. In addition, every non-profit ministry has had a marked decline in donations. We are no exception. Sources tell us that the traditional method of funding ministries is also on the way out. So we are beginning to transition into a new method of funding our work: Bi-vocational ministry. Some call it Tent-Making, but it is simply when a minister must hold a secular job in addition to his ministerial occupation.

We continue to grow in our healing and deliverance ministry thanks to Curry Blake’s teaching on The Divine Healing Training. [\(Click this link for a free download of the training.\)](#) This adds a whole new dimension to our evangelistic work, as people take you more seriously when they see the power of God. That is not a new concept. That’s how Jesus worked too. So let’s just say we are following Jesus in our ministry. One can’t go wrong with that!

Thank you for being a part of our journey!

Sincerely,

David and Jennifer Moerschel

MINISTRY IN BRIEF

SPEAKING AND TEACHING

Numerous times throughout the year, we were asked to teach at Atherton Place in Marietta, GA. A group of 10-12 gathered to hear the Scriptures taught.

I also spoke at a missions conference at Sewell Mill Baptist Church.

DOWNTOWN ATLANTA STREET MINISTRY

By far the most significant thing we did in 2010 was to become a part of Rescue Atlanta Church in Downtown Atlanta. This church/mission focuses on reaching the homeless and inner-city poor. They provide meals, transportation, clothes, showers, washing machines, medical assistance, chiropractic, and solid Gospel teaching and preaching.

It is amazing that every week it is not uncommon for us to minister to many sick, infirm, or oppressed people. Basically the entire group of people that come are in need in some way. **No more upper-middle class, "I've got it all together" church for us!** No, these people are in real need.

A man raised his hand during a service requesting prayer. I went up to him, "What do you need prayer for." He replied, "I just found out I have AIDs." Then he burst into tears. (He was obviously a homosexual.) You never know what you'll encounter there.

We have Muslims, prostitutes, gang-bangers, transvestites, homosexuals, drug users and pushers, sick, infirm, demonically possessed, and all other kinds of people in our services. I'm not sure there's a better place for us to be! This is where Jesus would be. He said, "It's not the well that need a doctor, but the sick" (Luke 5:31).

We'll also go onto the streets with a giant cross and talk to people and minister healing to them. Here are some pictures below:

← A service at Rescue Atlanta

← Feeding on the street.

← This guy was drunk, but here he is getting prayer by one of our teammates.

← Some more team-mates and a street-person we were ministering to.

This guy got healed of a back problem. He couldn't bend over before. Now you see him bending over. He kept saying, "I couldn't do that before!" Praise God!

2010 FINANCIAL REPORT

Total Income	10,421
<hr/>
